Quality & Food/Feed Safety Policy

Omega Proteins Ltd recognises that the disciplines of quality and food safety are an integral part of our management function. It is the policy of the company to develop and provide products that are safe for onward processing and consumption, meet the quality requirements of our customers, are within specification and meet our legal requirements.

We achieve this by adhering to our Quality and Food/Feed Safety Management System and operational methods that recognise quality, food safety and customer satisfaction as our primary goals.

We will;

- Comply with all applicable laws and regulations
- Follow a concept of continuous improvement and make best use of our management resources in all quality and food/feed safety matters
- Identify our position in the food/feed chain and be aware of our responsibilities to other parties in the food/feed chain
- Establish and communicate our objectives and performance against these objectives throughout the company and to interested parties
- Maintain a HACCP programme developed in line with CODEX principles
- Work closely with our suppliers and customers to establish the highest quality and food/feed safety standards
- Adopt a forward-looking view on future business decisions that may have quality and food/feed safety impacts
- Train all our staff in the needs, responsibilities and requirements of quality and food/feed safety management

It is also our aim that with the total involvement and understanding of all staff through the implementation of a documented quality and food safety management system, meeting the ISO 9001:2008, and working towards the ISO 9001:2015 standard, we will exceed the expectations of our customers and staff.
